## Employee Selection Services

Using psychometric tests as pre-employment assessments can help your business save time and money - by hiring the right employee the first time

Find top-performing employees with the help of our candidate assessment tools.

### How it works

Select the type of test and choose test settings. Enter candidate names and e-mail addresses (optional).

Hand the logins to your candidates in person or send test invitations by e-mail.

Candidates complete the test on any computer, either in your office or at home.

Instantly after test completion, the test reports can be downloaded or printed from the cSelect Test Administrator.

## cSelect Test Administrator

Immediately after sign-up you are granted access to the cSelect Test Administrator.

The cSelect Test Administrator is intuitive and easy to learn. Through this software you can create candidate test login credentials, manage existing candidates, print candidate test reports, and more.

The screenshot shows the Seliant web application interface. At the top, there is a navigation bar with the Seliant logo and buttons for Credits, Settings, Help, and Logout. Below this is a secondary navigation bar with links for Dashboard, Projects, Candidates, and Assessments. The main content area is titled 'Assessments' and includes an 'Export to Excel' button on the left and a 'Refresh List' button on the right. The central part of the interface is a table titled 'List of Assessments' with the following columns: First name, Last name, Assessment, Project, Added Date, Completion Date, and Test Status. The table contains 15 rows of data, all with a 'Completed' status.

## On-Site or Remote Testing

All candidate tests are accessed through our secure online servers. This enables you to test candidates remotely as well as locally.

To have candidates run the test at home, simply send out automatic test invitation to your candidates.

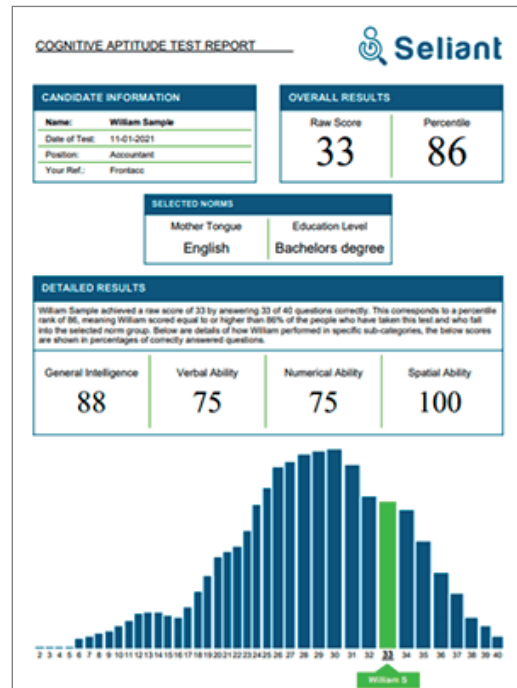

## Detailed Test Reports - Ready Immediately

Tests are scored instantly, and the test reports are ready immediately after test completion.

Test reports are saved to your computer or printed with ease through the cSelect Test Administrator.

You do not have to be a psychometrician to use our services; anyone can read our test reports.

## Export to Excel and View Test Statistics

Export all your candidate test data to Excel and use this data any way you like.

Through the cSelect Test Administrator you may also view candidate test statistics, giving you a detailed overview of your candidates' performance as a whole.
